

# Coodardie Bull Sale

Wed 14th August 2019

**FINAL  
Catalogue**

53 Lots

[www.coodardie.com.au](http://www.coodardie.com.au)

Mataranka NT

**Elders**

Welcome

*We are here to make your job  
**EASY, ENJOYABLE and EFFORTLESS***

*We have done the hard work for you. The more blue boxes the higher the bull has scored on our systems. Data, visual, pedigree or a combination, you be the judge. Use what ever selection tools you like—just don't miss out on securing a bull or bulls to suit your needs!*

*This sale team represents a quality selection of bulls—any and all of which are suitable to go straight to work in small or large commercial situations and give positive results.*

*For the discerning breeder, ample information is available in an easy to understand format, so that you can select the criteria that is important to you and your individual needs to identify the most appropriate bull.*

*Safe & pleasurable handling  
+ Easy care + High Fertility  
= **Greater Profits***

*Thank you to our repeat clients. Welcome to our new.*

*Yours sincerely*

*Moir, Mike, Clair  
and families ..*

# Coodardie Brahman

*“Excellence, Naturally—Grass fed, Quality bred”*

**Selling Agents:** Paul McCormick 0419 031777  
Peter Kelly (Stormy) 0417 853796

**Vendors:** Moira Lanzarin 0428 474262  
Mike & Clair O'Brien 08 89754460

## How to read this catalogue

All lots have been assessed by ourselves (the vendor) and independent livestock consultant, Gerald Wyatt of Classic Livestock Management Services (CLMS). This information is presented for each bull.

### Classic (CLMS) Rating

Scoring: **1 is best**, 5 is worst, **3 is good**, 3.5 acceptable  
Highlighted boxes show above average results

**Tenderness** is closely linked to fertility and therefore considered the most important trait, or a base from which to work. The flatter (or best, more concave) the bone (felt on the jaw or rib bone and also visible on the hock) the more tender the meat.

**Hormonal activity:** Directly related to palatability (taste) and fertility—determined by greasy spine, teat assessment, prominence and position of hair swirls and the softness of the skin. All of these are controlled by the pituitary gland.

**Escutcheon / Milk Quantity:** The escutcheon is the pattern made by the hair growth from under the tail to teats and across the back of the legs. These different patterns have been correlated to milk quantity and ability to continue lactating whilst pregnant. (Frenchman F.Guenon mid 1700's) I.e. produce higher weight weaners.

**Butter Fat / Milk Quality** is determined by the presence of fine, soft hair, yellowish skin and small fatty like scales between the legs, in the tail swish and in the ears. I.e. produce higher weight weaners

**Fertility Traits:** This is a summary classification of basic form, body shape, angularity, body length, depth, femininity, calving capacity, udder, teats, calving capabilities and reproductive capacity.

**Meat Traits:** This is a summary classification of head shape/muzzle; eye muscle, front end – neck/shoulders/chine, rear end – rump/hips/leg angle, muscle shape and fat cover.

### Linear Measure

Is based on the work of Professor Bonsmar and assists in identifying animals that perform well in grass production systems—fertility and meat—through use of quantitative measurements. Recorded here is an average of 6 measurement ratios.

**Temperament:** Animals assessed within the same management group on their calmness. Animals which are extremely quiet score “1”. Temperament over 3.5 is not tolerated at Coodardie and results in castration of males.

## Semen Evaluation

### Scrotal Volume

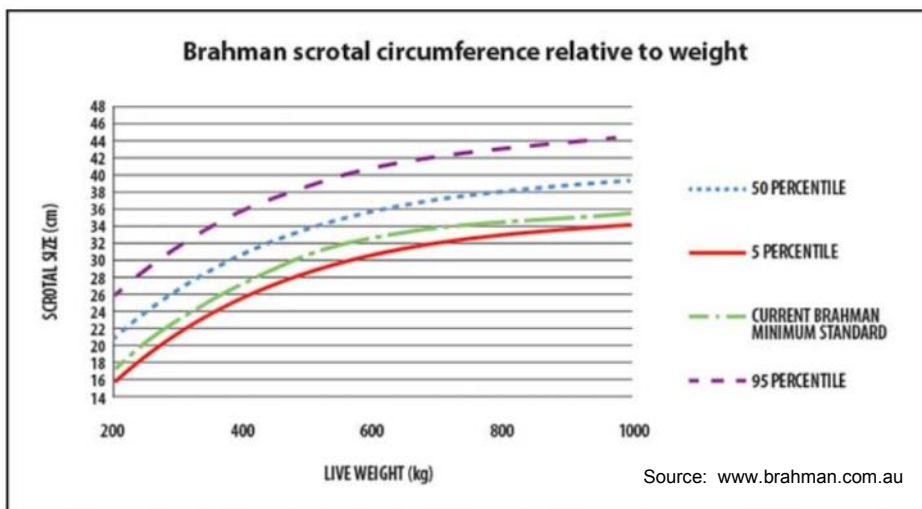

At Coodardie we consider good scrotal length and predominate epididymis more important than scrotal circumference alone. Therefore we have also recorded the scrotal length and calculated a comparative scrotal value.

Semen Test	
30cm 12cm	
860	75%

NT DPIR: *“It is important to recognize that the scrotal circumference is related to weight rather than age. The graph shows the average scrotal circumference for Brahman bulls at 2 years old for given weights.”*

**\*\* All bulls in the Coodardie Sale team are above to well above the 50 percentile mark.**

**Figure 1:** Details of normal scrotal circumference in the Australian Brahman bull population are provided in Figure 1

### Morphology—% Normal Sperm

The bulls have been semen tested sounded by Moira Lanzarin (trained by Bovine Fertility legend, Alf Turner) This involves crush side examination of penis; testicle shape, texture, circumference, length and epididymis; internal palpation and check of seminal vesicles; and collection of sperm and microscopic analysis to determine semen motility and semen morphology (abnormalities).

NT DPIR: *“Throughout puberty semen of different quality is produced. Prior to puberty no semen is produced followed by a stage of semen with a large number of abnormalities until reaching maturity with relatively stable sperm abnormalities.”*

**Mother’s Story**

This is a graphic representation to show her reproductive performance. It is in chronological order with the most recent on the left and back through history, to her as a 2 year old heifer where possible. Each box represents a year. Missing or unknown data is represented with a ?. Her current age is given.

dry	#7	dry	#5 calf	#4 calf	#3 calf	#2 calf	2yHfr
-----	----	-----	---------	---------	---------	---------	-------

**Preparations**

The bulls are predominantly #8’s (last year’s weaners). Born between October 2017 and December 2017. They were weaned in May 2018.The cows were split into red and grey mobs for multi-sire mating. DNA testing is used to determine sire and hair samples have been taken if breed registration is needed.

**Mineral & Protein Supplementation**

The bulls are paddock prepared on native spear grass rangeland rotation at Coodardie Stn with access to Sweetpro blocks. In the last 8 weeks prior to Auction, they have also had palm kernel meal.

**Health & Biosecurity**

All bulls are botulinum vaccinated (May 2019, 1 year Longrange), 7-in-1 ultravac (2nd dose Dec2018) and will be treated with tickicide (Bomectin) ready for final clearance dip to move across tick lines (see DPIR for individual requirements.) The Coodardie herd is JBAS 7, tested clear June 2019, with current entry into WA.

## ELITE SIRE

### Lot 1

### “Coodardie Big Brother”

DOB: 20/11/2015

Herd ID: 898/6

Description: White, Dehorn

NLIS: TAVR0579LBL00554

Sire: Coodardie All Bull (Grey, Dehorn)

Dam: Coodardie ATZ 319 (Grey, Dehorn)

Semen Test		Classic Rating (Individual Traits)				(Averaged Traits)			Temp.
38cm SC 16cm L	Morphology	Tenderness	Palatability	Milk Quantity	Butter Fat	Fertility	Meat	Linear Measure	
1839	84	2.5	2	2.5	3	2.5	2.2	2.9	2

For Sale	dry	#7 calf	#6 calf	#5 calf	#4 calf	?	?	?	<b>Mother's Story —</b> her calving history (12yrs)
----------	-----	---------	---------	---------	---------	---	---	---	--

*Big Brother is big on size, fertility, masculinity and meat—all in a gentle package. His mother's exceptional rebreed, despite her large size (plus his many other impressive attributes), meant that we could not ignore using him. We look forward to seeing the DNA results to confirm his positive influence. His full brother, “Little Brother” sold to Amungee Mungee, last Auction.*

Dam of **Lot 1 Big Brother**, after weaning her 4th calf in 4 years, (7/6/17)

## Lot 2

## “Coodardie Spencer 2”

**- AUCTION TERMS AND CONDITIONS OF SALE****IMPORTANT NOTICE**

All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
4. The auctioneer expressly reserves the right, without giving any reason therefor, to:-
  - (a) Refuse to acknowledge any bid;
  - (b) Withdraw any lot or lots before or during the sale;
  - (c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:-
  - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.
  - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
  - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
  - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
- 9(a) **PAYMENT** - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-
  - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16(a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

#### 17. GUARANTEES OF FERTILITY:-

17.1 BULLS. Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.2 FEMALES. Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later.

A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.

17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event

of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 **LIABILITY OF A VENDOR.** Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal (s) or to provide mutually agreed upon replacement animals.

17.5 **REFUNDS.** In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18(a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. **DELIVERY** - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

## **IMPORTANT NOTICE**

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

The hammer price is exclusive of GST but GST will be applied to the final hammer price and included on the invoice.
